

What is Psychotherapy Matters Virtual Clinic?

1 I'm treating a client who would benefit from a **consultation with a psychiatrist.**

2 There's **no psychiatrist available** where they live, and the wait for an appointment is too long.

3 But I'm a member of **Psychotherapy Matters Virtual Clinic!**

6 My client takes a copy to sign and **discuss with their family doctor.**

5 I complete the **Psychiatry Consult Request Form** using my **confidential mail account.**

4 As a part of the PMVC network, I have access to a psychiatrist via **confidential, secure video conferencing.**

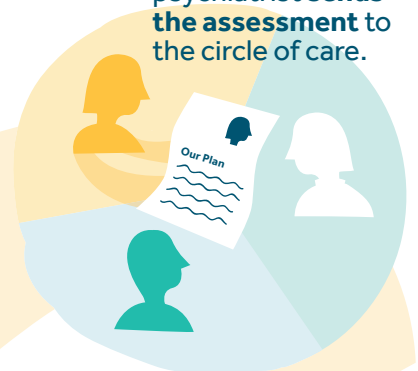

7 PMVC provides the **training and schedules the consultation.**

8 **Consultation day!** The psychiatrist can see and talk with my client **just as if we were in the same room.** Plus, I'm there to **support and collaborate.**

9 With my client's consent, the psychiatrist **sends the assessment** to the circle of care.

10 There's **no missed information!** My client gets the support they need, **efficiently and effectively.**

Psychotherapy Matters Virtual Clinic is the **cutting edge of collaborative care.** You can bring innovation and multi-disciplinary collaboration to mental health care. Join our team.
